

Wix & Google Email – Membership Letter 2

We need you to perform just a couple of more steps to establish an account for our new website and providing information for our Membership Directory. Please follow these instructions carefully:

- Click on the link <https://www.gamarctx.com> to go to the “Home Page”
- Click on “Login” in the top right of our Home Page
-

- Click on “Sign Up” (below) next to “New to this Site” (not the “Login Button”)

- Enter your own email address and whatever password you wish to use for our website below

Password

Submit

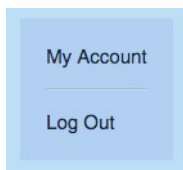

Already a member? [Log In](#)

- Click on “Submit”
- Click “OK”

Our Membership Chairperson will receive an email indicating this process has been completed and approve your user-id and password on our web page. This will entitle you to view and use all aspects of our website.

NOTE: This last step is very important – please do not skip it. It may take from minutes to hours to receive this email from our membership director indicating that your email address and password have been accepted in our website enrollment. You may need to also periodically check in your spam folder. The time delay is because the membership director does not sit at a computer 24/7.

You will receive a brief email from the membership director. It will have a subject stating “Welcome! Confirm Your Email” All you need to do on this page is click on the black button entitled “Confirm Your Email”. After you click on the black button you will be taken to the “Home Page” of our website. Simply click on the Login (top right) and login using your email address and password and click on the “Login” button. Once logged in, click on the carrot or name and you should see something like this:

MUST BE Done: Click on “My Account” and fill out the form that appears and click on “Update Info” so that you will be added to our Membership Directory and website database. This is critical to be certain you are kept informed throughout your membership and that we have the necessary information about your profile. Because of the state of our old website we were not able to migrate or trust any of the data.

You are now completely set up and can start flying!!!!
